# TRIALS

I spend a lot of time with my brides during trials. I like to get to know my brides likes and dislikes of styles. Why you have saved certain styles photos.. is it the front of the style you like more than the back?

I also like to see a sneak peak of style of dress, your colours your theme. Together we will create the perfect style for you. Trials can take upto 2 hours usually 1 trial is enough. I recommend just the bride gets a trial not everyone in bridal party unless you were worrying about someone in your bridal parties hair, due to style or difficult hair for styling. Any other questions please don't hesitate to ask.

# TRIALS

- Have photos saved in your phone of hairstyles and makeup you love!
- Be true to yourself and look at hair types and hair colour the same as yours!
- Hair accessories if you have them bring them along!
- Wear a white or Cream blouse top similar neckline to your dress. Try avoid high neck polo necks, scarfs etc they are going to rub the back of your neck and ruin hairstyle.
- Wear makeup to how you would on your Wedding day! If it's not myself doing your makeup.
- Please note Pinterest is good however majority is edited and filtered.
